

PAN-ATLANTIC
UNIVERSITY

UNDERGRADUATE PROGRAMME

SCHOOL OF MANAGEMENT AND SOCIAL SCIENCES

*Study **Finance** at Pan-Atlantic University...*

Your window to a successful career as a finance professional and wealth manager

The BSc Finance programme of Pan-Atlantic University provides its graduates with proficient mastery of the world of finance and investment management decisions. It builds them not just to be professionals but critical thinkers capable of managing the financial resources of various forms of organizations. The programme will not only provide knowledge of the basic foundations in finance but also equip the students with skills and tools to make apt financial decisions. The BSc Finance programme is designed to get the students attuned to a global marketplace, with the capacity to make strategic contributions in the management of financial resources.

B.Sc. Finance programme offers the following unique courses:

Financial Analytics

This course exposes the students to online real-time trading in equity, fixed income securities and currency with the aid of infoware and other similar financial data terminals for spot decisions. The 'Growmykudi' gaming platform provides an opportunity for action-based learning.

Financial Modelling

Statistical packages like Excel, Eviews, Gretl, and SPSS are available for modelling accounting and financial data.

Accounting Laboratory

The Labs are equipped with standard accounting and business intelligence packages (e.g. Sage) that help in analyzing financial data.

Internship placement

Compulsory and voluntary internship opportunities are available for students to obtain industry experience with top companies.
